

# SMS FLATSCREEN CH STD

## 600/1150/1450/2000

Twice as good.

SMS Flatscreen CH STD fulfills two needs at once. A doubly good design that holds two screens on the same pillar. As with most of our ceiling models, you can tilt the screen for the best possible viewing angle. The screens can also be swiveled from side to side to face any point in the room. A most ingenious way to display two screens at once. The bracket holds up to 100 kg. Perfect for the lobby or other public spaces or if you like to watch two programs at once. News for this bracket is that the screens can be adjusted stepless along the pillar.

### New!

The adapterplate has a new design, which is easier and more user friendly. There is also a new design on the pillar which allows you to, stepless, raise and lower you screen and shelves.

The new SMS Flatscreen H2 Unislide is included in the bracket.
